

Criteria for the appointment of Postdocs at Health, Aarhus University

The criteria apply for postdoc appointments at Health. The assessment of each applicant should be based on these criteria guided by the material submitted by the applicant including the application, status information and CV. Specific qualification requirements must be stated in the job advertisement. Reference is also made to the "[Template for applicant – postdoc \(general information\)](#)" and "[Template for assessment – postdoc](#)".

Research activities

Appointment as a postdoc requires academic qualifications at PhD level.

Teaching and course activities

The Postdoc position mainly comprises research. In addition, if specifically mentioned in the job advertisement, teaching may also be required to a certain extent.

Other tasks

A postdoc position may, if specifically mentioned in the job advertisement, also include the performance of other tasks.
